I said this morning, the old quote, "Those who don't know (or in this case learn from it) history are bound to repeat it." Meanwhile, GEO announced last week that they are distributing their largest ever dividend (65 cents) this quarter and we are potentially lowering ours. The board cannot accept Damon's spin of "outside factors." Someone this morning said we are ripe for an activist investor to issue some demands of our Board.

Subject: Cibola County Correctional Center

To the CCA Team:

It is with deep disappointment that I inform you of the Federal Bureau of Prisons' decision not to exercise its option to renew the management contract with our Cibola County Correctional Center. The current contract is set to expire at the end of September.

For nearly 18 years, Cibola has fulfilled our government partner's mission and been a strong corporate citizen in the Grants and surrounding community. Our dedicated employees at Cibola have much to be proud of, and the rest of the CCA family shares in that pride.

To each Cibola employee – you are not alone. The CCA family supports you, and we are committed to doing everything we can to assist you during this difficult transition. To that end, representatives from FSC Human Resources and Operations are on-site at the facility. Part of that assistance includes sharing opportunities for continued employment with CCA – both in New Mexico and around the country.

As we work closely with BOP officials to ensure a safe and seamless transition of the inmate population, our focus will also turn to actively marketing Cibola as a solution for other government partners.

Thank you,
Damon
